EDUCATION

AIMIS (Gujarat Technological University)

June. 2023 – jan 2025

Master of Computer Application (MCA)

8.75 CPI

Relevant Coursework: Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Computer Networks (CN), Programming in Python, Programming in Java, MERN Stack Development, AWS Cloud Computing.

EXPERIENCE

Odoo Developer

RdFlex Pvt Ltd.

July 2025 – present

Gandhinagar

- Develop and customize Odoo 18 modules using Python and the ORM framework, creating new models, views (XML), and business logic to meet client requirements
- Contributing to the development of an AI-powered Odoo SaaS platform, building features for automated instance management and AI integration
- Engineer and manage PostgreSQL database schemas, ensuring data integrity and optimizing queries for performance
- Assist in the full development lifecycle, including requirements gathering, debugging modules, and providing technical support for client implementations

Python Developer Intern

RdFlex Pvt Ltd.

Jan 2025 – June 2025

Gandhinagar

- Developed and maintained backend components for a large-scale business management platform using Python, delivering custom features for clients in manufacturing and retail sectors.
- Engineered and optimized PostgreSQL database schemas and queries to ensure high data integrity and improve application performance.
- Integrated various third-party RESTful APIs to extend application functionality, particularly for e-commerce and inventory management systems.
- Participated in the full software development lifecycle, from gathering requirements and creating technical specifications to debugging and resolving issues in production systems.

PROJECTS

Hotel Management System | (TechStack : Odoo 18 + Python + PostgreSQL)

Built a complete hotel management ERP module in Odoo 18 with room booking, check-in/check-out, and billing. Integrated Razorpay payment gateway for online payments

Job Portal | (TechStack : React.js + Node.js + Express.js + MongoDB)

Developed a full-stack job portal with user registration, job listing, search filters, and application tracking. Built REST APIs for backend and responsive UI with React

AI-Powered Odoo SaaS Platform | (Currently Working) (Python + PostgreSQL + kubernetes + Docker + Git)

Working on a SaaS platform that automates Odoo instance deployment and managementContributing to backend development with Python and PostgreSQL

TECHNICAL SKILLS

Languages : Python, SQL (Postgres), JavaScript, HTML/CSS,

Frameworks : ReactJs, NextJs, NodeJs, WordPress, ExpressJs, Odoo Framework

Developer Tools : Git, Github, Docker, Kubernetes, VS Code,

Others : AI Integration, REST APIs, ORM Framework
